Key “Pieces” to Fall River’s Success

- Fall River is like a 500 piece jigsaw puzzle...we have all the pieces...we need the “*right*” people who know how to put them together
- The City cannot focus on all 500 pieces; however after talking with city residents, they have repeatedly stated that 4 “*puzzle pieces*” are the most important
- I believe if we work with a “*laser focus*” on these 4 pieces and get them right, the City will see **significant economic development and jobs!**
